Dear Mr. Watson,

Thank you so much for making EcoTraction. My business partner, Keltie Brisson and I, run an adult day program for people with cognitive impairments. Part of our program is offering pet therapy to our clients. Living in Edmonton at this time of year can be very treacherous for our elderly clients walking outside due to ice and also for our pet therapy dogs, Blue and Phoebe. Thanks for making a product that wont burn paws or cause poisoning if ingested! We greatly appreciate it.

Sincerely,

Chelsea Krupa
Co-owner, Occupational Therapist
